Thank you for your interest in Hannah's House. Enclosed is information regarding our services. Hannah's House is a non-profit organization that cares for the needs of children whose caregivers are involved in custody litigation by providing a safe environment for supervised visitation and exchanges.

As a non-profit organization we are committed to serving the needs of children and families in the metroplex area through our role as a neutral third party. We try to provide the structure families in litigation need in order to allow the children involved ongoing safe contact with their caregivers and relatives. Although we are fee-based we do offer a sliding scale in certain cases.

Thank you again for your time and interest in Hannah's House.

Sincerely,

The Staff of Hannah's House
